Points earned for completion of requirements below. No partial credit.

Find two examples of your past digital art or photography. In particular, I'm looking to see how you used any of the following in your past art:

Layers in composites  
Masking in composites  
Color alteration or replacement  
Photo restoration  
Portrait Retouching.

If possible, please send me the .psd file with layers.

If all the work was done in Adobe Lightroom, please export a .dng file that contains all the edits.

In 3-5 complete sentences, evaluate your past work.

On each of the images you turn in, answer these questions:

1. How would you rate your masking technique on a scale of 1-5 (1 being worst and 5 being best)?
2. What do you think was the most successful part of each image and why?
3. What part of each image could be improved and why?

Submit the files to the Class Dropbox as the start of class.

You can turn in your written response by either:
