Homework: Selecting A Subject
(5 points)

Read the article called "Selecting A Subject" from the book *On Being A Photographer* by Bill Jay and David Hurn.

Your response must be typed. It can be emailed, dropped in class dropbox, or printed and turned in.

During the second part of the semester, you will be working on your "concentration" for your portfolio. You will need to pick a subject or emphasis for that concentration. In complete sentences, do the following:

- Write down three things that you stood out to you in this article. It could be something you felt was important, that you learned, that you agree with with or disagree with, etc.
- Also, write down why those three things stood out to you. What was your reaction to them?

We will discuss the article in class.
